No. 173 dated 04/17/2023

Dear Sirs!

With this letter, we inform you that on April 6, 2023, we received a money transfer in the amount of UAH 42,482.18 for the needs of the «Balance» project, which was created for psychological assistance to children affected by the war.

UAH 265,000 is not enough to complete all the work in the first psychological rehabilitation room (namely: to purchase the necessary equipment).

This project is unique, as this room is equipped with the latest equipment for relaxation and removal of emotional tension from the child, its rapid recovery and corrective work after psychological trauma. In one place, we have collected such means of influence on the emotional and psychological state of the child, which were not used in Ukraine before. Our space is equipped with means for light therapy, sound therapy, fairy-tale therapy, sand-play and art therapy. All this allows us to talk about the uniqueness and value of the «Balance» project for children who need the restoration and preservation of psycho-emotional balance disturbed as a result of psychological trauma caused by the war.

We hope for your support and help. Let's do good deeds together!

Sincerely, Director of the
«Dobri vchynky razom»
Charitable Foundation
